MYLAPS

EVENTMANAGER

The all in one solution for your event

EventManager consists of different modules that cover each aspect of the event cycle: from event registration and training to live tracking, social media updates and reliable results.

8293 Registration

Easy event registration

The registration module ensures a smooth and easy registration process for organizers and participants.

- Manage registrations for all your events or races in one platform
- Online, on-site and expo registration
- Available in multiple languages and with various currencies

LiveTracking

Real time athlete tracking

Keep fans, friends and family up to date on the performance of their heroes with the LiveTracking app and on the web. The application features optional and customizable space for sponsor messages.

- Live tracking of participants
- Sponsors get maximal brand recognition
- Based on official MYLAPS timing information
- Live leaderboard

A complete and personalized app

Give your event a unique benefit over other races by offering participants the most complete event app in the industry.

- Detailed event information
- Live tracking of participants
- Personalized training plans
- Customized sponsor opportunities
- Live leaderboards

EventApp

Live timing updates

The SocialShares application offers customizable live updates through Facebook, Twitter, email and text messages.

- Live timing updates
- Participants and spectators easily register for different social media
- Messages can be customized, showing sponsor logos

SocialShares

Timing

Timing with unquestionable results

Our systems and software guarantee unquestionable results, immediately after the race.

- Acknowledged as the best timing system, MYLAPS EventManager works in combination with all MYLAPS Timing systems: BibTag, ChampionChip and ProChip
- Strong worldwide partner network

EventResults

Responsive and customizable website

- Publish event results to the internet
- Allows participants to find their result easily
- Available as a standalone (mobile friendly) website
- Personal results page for each participant

Engage your athletes and fans

About MYLAPS

With over 30 years of experience, MYLAPS is the pioneer in sports timing. Back in 1982 we invented automatic sports timing and since then the world of racing has adopted our products and services.

MYLAPS Experience Lab is a division of MYLAPS Sports Timing focusing on the development of Web and App services for sports events, participants and spectators in order to create a more complete and streamlined sports experience. Together with the products and partner network of MYLAPS Sports Timing we offer a complete event experience to engage the athletes and fans to your event.

MYLAPS has offices in
The Netherlands, USA, Australia,
Malaysia and Japan.
